

CENTERPOINT ENERGY'S 2018 CITYSMART[®] MARKET TRANSFORMATION PROGRAM

INTRODUCTION

Imagine the possibilities with an extra **\$56 million*** in government budgets.

- Fire stations
- Parks
- Law enforcement
- Infrastructure
- Programming

That's the impact the CitySmart Program has had on Texas governments.

CitySmart is designed to help Partners identify energy efficiency opportunities in existing and newly planned facilities and to provide monetary incentives to implement these projects.

The program is funded by CenterPoint Energy and is offered at no cost to Partners. CitySmart is a voluntary program that offers objective, third-party consulting on best practices in the areas of energy usage and energy efficiency. Please note that no products or services are sold through CitySmart.

Based on your individual needs, the program will provide customized assistance such as:

- ENERGY PERFORMANCE BENCHMARKING:** Learn where and how your buildings are wasting energy.
- ENERGY MASTER PLANNING WORKSHOPS:** Learn energy management best practices that finance, facilities, and administrative staff can employ to maximize long term savings.
- FINANCING ASSISTANCE:** Learn about the many options available to finance energy efficiency projects that involve little to no upfront cost.
- TECHNICAL ASSISTANCE** to help identify and evaluate energy-efficiency opportunities.
- COMMUNICATIONS SUPPORT** to help publicize your leadership and accomplishments in energy efficiency.
- INCENTIVES:** Earn varying cash incentives for lighting, HVAC, roofing and other projects that reduce energy consumption and/or peak electric demand.
