

2017 El Paso Electric

Large Commercial Solutions Program Participation Process

1. CONFIRM ELIGIBILITY:

- Facility must reside in Texas and receive electric service from El Paso Electric
- Large commercial (>100 kw demand at one facility or > 250kW at all facilities) are eligible. Verify by one of the following: El Paso Electric (EPE) bill showing demand charge; website epelectric.com/customer-login; or contact Walter Guerrero using the contact information below.

2. COMPLETE LETTER OF INTENT:

- Letter of Intent (LOI) provided to EPE customer for program enrollment
- Program participant returns signed LOI to CLEAResult Program Consultant Aaron Aguilera

3. EVALUATE PROJECT OPPORTUNITIES/SCHEDULE PRE-INSTALLATION INSPECTION:

- CLEAResult will assist in evaluating potential of energy efficiency projects
- Schedule pre-inspection(s) with Aaron Aguilera prior to any equipment removal
- CLEAResult will estimate energy savings and incentive payment calculations based on pre-inspection equipment surveyed and/or proposed design

4. RESERVE FUNDS VIA PROJECT APPLICATION FORM: (see form for additional details)

- CLEAResult provides Project Application Form to participant
- Participant completes information, project size (in sq. ft.), project start and completion date
- Participant returns signed application to Aaron Aguilera
- Participant is notified of availability of Large Commercial Solutions Program funds

5. COMPLETE PROJECT:

- Participant completes project and schedules post-inspection with Aaron Aguilera to determine final energy savings and incentive payment
- Participant provides signed W9 to Aaron Aguilera
- Participant receives energy efficiency incentive payment from El Paso Electric

Please contact an El Paso Electric or CLEAResult representative if you have any questions or for more information.
