

# CENTERPOINT ENERGY'S 2019 SCORE<sup>SM</sup> LITE MARKET TRANSFORMATION PROGRAM

## INTRODUCTION

**10,800** more teachers\*  
or  
**10 million** more books for students\*

That's the impact the SCORE Lite Program has had on Texas institutions.

Next to payroll, energy is often the biggest line item on a school's budget. CenterPoint Energy designed SCORE Lite to give schools the financial resources necessary to reduce energy expenses and direct more of their budgets to students and teachers.

CenterPoint Energy offers two ways to participate: The no-cost SCORE Lite Program is an option for Partners to earn higher financial incentives if they elect not to utilize the non-cash incentives SCORE provides. Partners who are interested in participating in SCORE Lite should contact the program representative immediately for additional details on the advantages of SCORE Lite.

SCORE Lite offers varying cash incentives for lighting, HVAC, roofing and other projects that reduce energy consumption and/or peak electric demand (see chart below).

### INTERESTING FACTS

- CenterPoint Energy's SCORE Partners have completed 1,650 projects, which will result in more than \$180 million in energy savings over the lifetime of the equipment
- In terms of annual greenhouse gas emissions, that's the equivalent of taking **315,000 passenger vehicles** off the road
